Clean Liquid Systems Hazmat sorbent products offer a strong, maximum absorbent for cleaning up of unknown liquids including a host of chemicals, water and petroleum-based spills. Our hazmat sorbent products are designed to encapsulate and absorb the liquid for easy cleanup, making them an effective tool for industrial facilities, automotive repair, railroad spur transfer areas, aviation maintenance and emergency first responder applications. CLS manufactures its' Hazmat Sorbents in a yellow warning color to assist emergency responders identify the containment area and to use caution during cleanup. CLS's sorbents come in a variety of styles and sizes, or can be customized to suit your individual applications.

Our products assist you in meeting certain sections of Regulation & Compliance standards under CFR 29, 40 & 49.

All styles are produced to quickly and effectively absorb spills of oils, solvents, coolants, water and unknown chemicals.
